About This Game

In 2019 nearly 200 million passengers used public transport, traveling nearly 30 million km. As part of an analysis, the company has determined that every third passenger traveled without a valid ticket. The company estimated that it's losing them millions each year. As part of the repair plan, you have been hired as a ticket controller to catch and punish everyone who doesn't follow regulations. Fines, reprimands, arguments and even some violence — you will have to work with that on a daily basis. In addition, you will also take care of the visual aspect of our fleet, replacing missing elements, repairing the broken ones and keeping the bus nice and clean. The company counts on you!

Good Morning, Tickets Or Passes Please

When being on duty inspect all passengers for validate tickets. Make sure that high statistics of people driving without will quickly drop to zero.

No Ticket, No Ride

Stick to the rules, no ticket, no ride. Ask unscrupulous clients to kindly get off the bus or force them to buy a more expensive ticket from you. Be as much to the passengers as you want to be, just remember to ultimately bring profit to your company.

Repair and Clean Up the Mess

In case of major problems, don't hesitate to use direct coercion measures. However, remember to clean the mess after and eliminate all the devastated elements of the bus.

What are you waiting for? Your shift has already started!

Key Features:

- Validate Tickets
- Talk With the Passengers
- Simple Combat System
- Realistic Artificial Intelligence
- Bus Cleaning System
