## About This Game

Survivor Squad: Gauntlets is a tactical shooter game for PC. In this Squad of Survivors in a world where Line of Sight is extremely important, you cannot shoot what you cannot see. Develop your formations, move as a unit and cover every corner. Leave no man behind!

Use your weapons and gadgets to slaughter hundreds of infected in a series of levels with unique events. Gather your group, build your base, craft your gear, level your squad and get to the extraction!

---

**FIGHT  
HUNDREDS  
OF ENEMIES**

Complete 20 Puzzle-like Editor Challenges that will test your brain and problem solving skills while teaching you the power of the editor

**COMPLETE  
EDITOR  
CHALLENGES**

Kill the Infected

Place an Event and Trigger it with the Button  
Enter the Event Id into the Button Inspector

**Survivor Squad: Gauntlets** also features a very powerful Editor that has been used to build all the Developer Content you see in the game. It lets you place all kinds of Objects and interact with them through hundreds of possible Event Actions and manipulate them with Variables and Event Triggers. Anything from Lasers to Sentry Guns to Buttons and even Custom Interfaces!

The editor is essentially a visual programming language so if you can imagine it, you can build it!

**BUILD  
YOUR  
GAUNTLETS**

Along with the Editor comes several tools for sharing and playing Community built Gauntlets. Build a death trap and challenge your friends to beat your score!

**SUGGEST FEATURES AND  
WATCH THEM  
BE IMPLEMENTED**

The game is fully released but the updates will continue! If you have any features you'd like to see or specific Event Actions that you need implemented to build your dream Gauntlet then make sure you post them on the forums, I'll be listening and implementing everything I can!
